To Whom It May Concern

Jonelle Naude- Letter Of Recommendation

Jonelle has crafted a credible leadership presence in South Africa and abroad. She is an original thinker with an innate ability to ignite possibility for those whom she comes into contact with.

She has been instrumental in sparking the establishment of FutureFit – SA's leading person centred entrepreneurship development movement. She is considered a leading figure in coaching and leadership development practice, holds an academic masters degree in psychology and was the first South African to qualify as a Certified Professional Co-active Coach.

Through her authentic style and approach, Jonelle has impacted individuals, teams, and organisations locally and internationally across the private and private sectors. That she is a CTI Faculty member training coaches in Europe and the UK and a supervisor for the South African College of Applied Psychology, attests to her leadership, credibility and value as a possibility catalyst.

Contributing to broader societal transformation, Jonelle has developed and implemented a coaching programme for youth in Pollsmoor Prison, has designed and implemented peace facilitation for victims of xenophobic violence in 2008, and launched the "no-name initiative" towards greater dialogue and healing in South Africa.

It is with unwavering confidence that I'm recommending Jonelle, assured that this will add additional ammunition to her leadership arsenal and cement her standing as one of SA's leading young women.

Sincerely

Gary Graham
