

Connie and I used to conduct training seminars for the members of the American Chamber of Commerce in Beijing, China. Connie had already been greatly recognized by the trainees as a seasoned trainer.

When I was hired to do training, I had certain fears and weaknesses. Connie knew it but encouraged me to overcome them. She celebrated with me when I succeeded. She has done so much in developing others, myself included. With her help and support, our team became the best team ever, for me. Connie left the company in the summer of 2007, but her influence as a transformational servant leader has not been forgotten. It is deeply rooted in my life and is growing bigger and bigger. I miss her very much!
